

Training & qualification for **First Aid**

Level 3 First Aid at Work Requalification: 2 day course

This 2-day First Aid at Work course is designed for those who currently hold a First Aid at Work qualification which is due to expire.

Please consider the following rules for attendance:

A First Aider can renew their First Aid at Work qualification by attending a 2-day requalification course without question, if it's within 1 month past the expiry date

If the First Aider has lapsed by more than 1 month, but no longer than 3 months, then the First Aider can requalify by attending a 2-day course providing 'Special considerations' have been applied

Special considerations are:

- A signed letter from the employer to the provider of the training stating the reasons why in their opinion, the First Aider is suitably experienced to attend a 2-day course and does not require a full 3-day FAW course

OR ...

- A decision is made by the provider of the training after discussions with the employer, or the First Aider, and deciding that their previous experience is sufficient to attend a 2-day course
- If the First Aider has lapsed beyond 3 months then they must attend a full 3-day First Aid at Work course

The important thing to remember is that as soon as the certificate expires, the First Aider is no longer considered competent to act as a First Aider in the workplace which may well leave the employer with a shortfall of First Aiders. Therefore, it would be prudent to arrange their First Aid at Work Requalification before they expire.

Syllabus

A range of subjects are covered including:

- Legalities, responsibilities and reporting
- Heart attacks
- Dealing with an unresponsive casualty
- Eye injuries
- Fractures and spinal injuries
- Choking
- Control of bleeding
- Chest injuries
- Assessment of the situation
- Diabetes
- Shock (including Anaphylaxis)
- Asthma
- Head injuries
- Poisoning
- Sprains and strains
- Stroke
- Burns
- Epilepsy
- Resuscitation
- Bandaging

Level 3 First Aid at Work: 3 day course

It is a requirement of the Health & Safety law that employers provide a safe and healthy environment to work in. If your assessment of first aid needs highlights the need for qualified first aiders, then this level 3 qualification (level 6 in Scotland) will provide you with suitable, highly trained personnel.

This comprehensive three-day course covers a wide range of first aid emergencies, enabling all participants to deal with emergency situations with confidence in a prompt, safe and effective way. In addition, this course will include any protocol changes that may have arisen since their last training course.

This course will give the participants a qualification to the highest level of First Aid, meeting the statutory requirements of the Health and Safety (First Aid) Regulations 1981.
